Skilled in Python, Object-Oriented Programming (OOP), SQL, Database Management Systems (DBMS), data analysis, and AI fundamentals. Passionate about developing software solutions, solving real-world problems, and continuously learning modern technologies.

EDUCATION

Diploma in Information Technology

Gyan Manjari University, Bhavnagar

Completed: 2026

TECHNICAL AREA	SKILLS
Programming	Python, JavaScript, Node.js, Object-Oriented Programming (OOP)
Databases	SQL, MySQL, DBMS
Libraries	NumPy, Pandas, Matplotlib
Concepts	AI Basics, Data Visualization, Problem Solving
Tools	Git (Basic), MS Excel, Cursor AI / GitHub Copilot ,

ACADEMIC PROJECT

Loan Management System with Accounting

Technologies: Node.js, Express.js, MySQL, REST API, Git, Hostinger

Developed a comprehensive Loan Management System with customer management, loan processing, EMI tracking, repayment management, and accounting modules.

implemented role-based access control for Admin, Staff, Accountant, Cashier, and Customer.

Designed RESTful APIs and integrated a MySQL database for secure data storage and efficient financial record management.

Built automated EMI calculations, payment tracking, and accounting reports to streamline loan operations.

Successfully deployed the application on **Hostinger** using Git-based deployment and maintained database connectivity.

STRENGTHS

• Quick Learner • Problem Solving • Teamwork • Adaptability • Positive Attitude • Willingness to Learn
